Title: SEMICONDUCTOR DEVICE HAVING AN EDGE TERMINATION STRUCTURE
AND METHOD OF MANUFACTURE THEREOF

PETITION IN RESPONSE TO DECISION ON PETITION UNDER 37 CFR 1.181

Sir:

Applicant(s) hereby petition to reverse the Decision on Petition under 37 CFR 1.181, rendered March 16, 2011. The delay in responding was due to error and without deceptive intent on my part.

The decision is in error for the following reasons.

The discussion outlined in the March 16, 2011 decision acknowledged that Applicant had satisfied Items (1) and (3) of the three requirements for granting relief.

With respect to Item (2), Applicant respectfully asserts that the necessary conditions had been met in the March 16, 2011 petition. Applicant had received the official "Auto-Reply Facsimile Transmission" receipt from the USPTO. The total number of pages sent was confirmed by the USPTO. This document alone should have been sufficient to assert that Response to Missing parts was timely received by your office on 31 JULY 2006. Applicant's Representative's knowledge (i.e., reviewing of the USPTO-transmitted receipt and noting the timely response) should have been sufficient "first-hand" knowledge; the *USPTO "told" me it had timely received the papers*. Per 37 CFR 1.6 (d), ". . .The receipt date accorded to the correspondence will be the date on which the complete transmission is received in the United States Patent and Trademark Office. . ."

However, in the interests of moving this matter forward, Applicant has enclosed a "Statement of Fact" executed by Vilimaina Naga on June 16, 2011, attesting to the timely

facsimile transmission of the papers in response to the Notice of Missing Parts on July 31, 2006. Ms. Naga had signed the Certificate of Transmission under 37 CFR 1.8 on July 31, 2006. (Please note the hp LaserJet 303 "Fax Call Report" and USPTO Auto-Reply Receipt showing successful transmission and receipt of all pages).

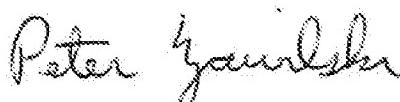

To reiterate, since all acts required of Applicant(s) to accomplish a timely response to the Notification letter mailed on July 6, 2006, the holding of abandonment was in error, and Applicant(s) hereby petition for its withdrawal.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

The Commissioner is hereby requested and authorized pursuant to 37 CFR §1.136(a)(3), to treat any concurrent or future reply in this application requiring a petition for extension of time for its timely submission, as incorporating a petition for extension of time for the appropriate length of time. Please charge any additional fees which may now or in the future be required in this application, including extension of time fees, but excluding the issue fee unless explicitly requested to do so, and credit any overpayment, to Deposit Account No. 50-4019.

: DECISION ON
: PCT LEGAL ADMINISTRATION
: PETITION UNDER
: 37 CFR 1.181

This Decision is in response to applicant's "PETITION TO WITHDRAW ABANDONMENT UNDER MPEP SECTION 711.03(c)" filed on 04 December 2007, which is being treated as a petition under 37 CFR 1.181 requesting that the above-identified application's declaration was timely filed on July 31, 2006 by facsimile.

BACKGROUND

In a decision from this Office on 19 May 2006, the petition to revive was granted.

On 06 July 2006, the United States Designated/Elected Office mailed a Notification of Missing Requirements under 35 U.S.C. 371 (Form PCT/DO/EO/905) indicating that the oath or declaration complying with 37 CFR 1.497(a) and (b), identifying the application by the International application number and international filing date." To avoid abandonment, the above items must be furnished within the time period set forth. The notification set a two months time limit or 32 months from the priority date for the application, whichever is later to respond.

On 30 November 2007, the United States Patent and Trademark Office mailed the Notification of Abandonment (PCT/DO/EO/909) since the applicant has failed to respond to the notification of MISSING REQUIREMENTS (Form PCT/DO/EO/905), mailed 07/06/2009 within the time period set therein.

On 04 December 2007, petitioner submitted the instant petition stating that the declaration was allegedly timely filed by facsimile on 31 July 2006.

DISCUSSION

A petition under 37 CFR 1.181 filed under 37 CFR 1.8(b) Certificated of mailing or transmission must be accompanied by:

(b) In the event that correspondence is considered timely filed by being mailed or transmitted in accordance with paragraph (a) of this section, but not received in the Patent and Trademark Office, and the application is held to be abandoned or the proceeding is dismissed, terminated, or decided with prejudice, the correspondence will be considered timely if the party who forwarded such correspondence:

(1) Informs the Office of the previous mailing or transmission of the correspondence promptly after becoming aware that the Office has no evidence of receipt of the correspondence;

(2) Supplies an additional copy of the previously mailed or transmitted correspondence and certificate; and

(3) Includes a statement which attests on a personal knowledge basis or to the satisfaction of the Director to the previous timely mailing or transmission. If the correspondence was sent by facsimile transmission, a copy of the sending unit's report confirming transmission may be used to support this statement.

Applicants have satisfied items (1), and (3) but not item (2) under 37 CFR 1.8(b).

With regard to item (1) above, the present petition was promptly filed.

With regard to item (2) above, the present petition includes a copy of the previously transmitted correspondence and certificate of transmission.

With regard to item (3) above, section 512 of the MPEP states the following: "If the person signing the statement did not sign the certificate of mailing, then the person signing the statement should explain how they have firsthand knowledge of the previous timely mailing or transmission." The present petition, which is signed by Peter Zawilski, states that the response was timely transmitted by facsimile. However, Mr. Zawilski is not the person who executed the Certificate of Transmission for the 31 July 2006 transmission, and he does not state "how he has firsthand knowledge of the previous mailing or transmission," as required by the MPEP (the petition does not include a confirming statement from Vihmana Naga, the person who signed the Certificate of Transmission).

Based on the above, the present submission does not satisfy the requirement of 37 CFR 1.8(b)(3). Accordingly, on the present record it cannot be concluded that the declaration was included with the present petition were originally filed by facsimile on 31 July 2006 as a timely response to the Notification Of Missing Requirements.

CONCLUSION

For the reasons discussed above, applicant's petition to withdraw the holding of abandonment under 37 CFR 1.181 and 1.8(b) is **DISMISSED** without prejudice.

The application remains **ABANDONED**.

Any request for reconsideration must be filed within **TWO (2) MONTHS** of the mail date of the present decision and must include the materials required to satisfy 37 CFR 1.8(b)(3), as discussed above and in the MPEP. The reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.181".

Any further correspondence with respect to this matter may be filed electronically via EFS-Web selecting the document description "Petition for review and processing by the PCT Legal Office" or by mail addressed to Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, Virginia 22313-1450, with the contents of the letter marked to the attention of the Office of PCT Legal Administration.
